## Sixth Form Dress Code

### Introduction

At Holcombe Grammar School Sixth Form, we recognise the importance of self-expression and individuality, which is why our students are not required to wear a uniform. This privilege is a testament to our trust in our students' ability to dress in a manner that reflects both personal style and the values of our school community. The development of this dress code policy is the result of collaborative efforts and feedback from our student body, ensuring that it aligns with the collective voice and aspirations of our Sixth Form students. Our dress code aims to create a positive and respectful learning environment where all students can thrive. By adhering to these guidelines, students demonstrate their commitment to the school community and respect for themselves and others. We believe that dressing appropriately for the school setting prepares our students for future professional environments, while still allowing for individual expression.

These requirements below are not exhaustive in defining acceptable and unacceptable standards of dress and appearance, and we also reserve the right to adapt the policy with notice. Therefore, students should consult with their Head of Year in advance of wearing any item of which they are unsure of.
